Introduction

The 2004 edition of the City of Rio Rancho Street and Zone Atlas is produced from computerized, digital information contained within the City Development Department's Geographic Information System (GIS).

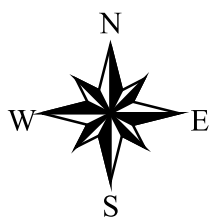

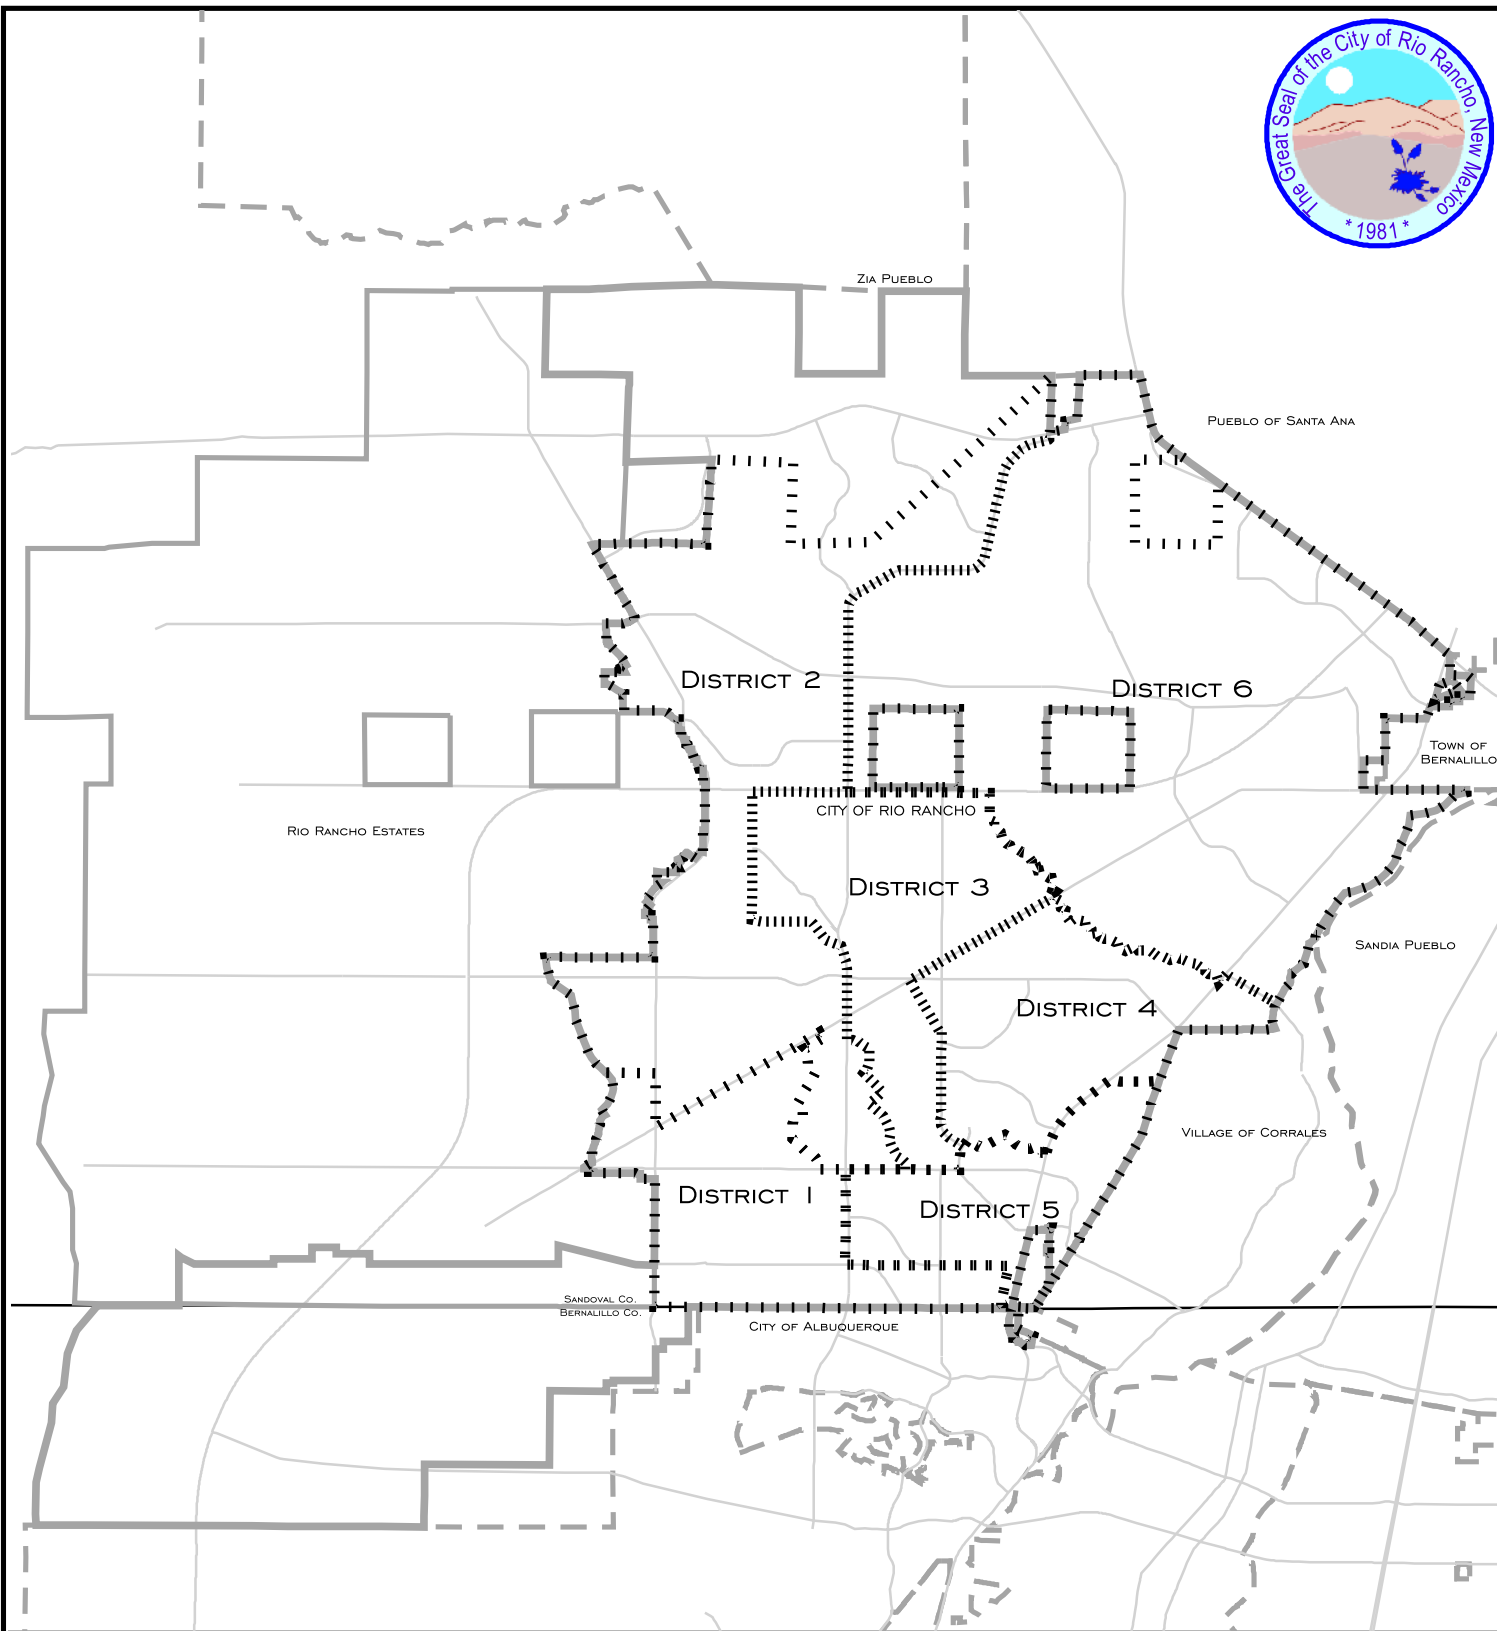

The City Atlas contains zoning designations and addresses within the municipal limits of the City of Rio Rancho. This Atlas is for informational purposes only and published in this form solely for the convenience of the user. Thus, the maps should not be used for exact measurements or legal descriptions of property. Legal descriptions must be obtained from either the City Development Department or the Sandoval County Clerk.

The official Zone map is that map incorporated by Ordinance 81-15, approved and adopted on October 28th, 1981 and as subsequently amended. Certification of zoning must be obtained from the City Development Department.

The pages are not to exact scale, but each individual map in this Atlas is slightly less than 1 square mile (1"=600').

Disclaimer: While every attempt has been made to accurately depict the mapped area, errors and omissions may occur. A map is like any other illustration or model and can only be an approximation. These maps are not a survey nor are they an exact zoning map. It is intended for use as a land management and planning tool. Therefore, no guarantee or warranty, expressed or implied, is given as to the fitness of this data for any other purpose.

Note: Due to requirement of the State of New Mexico Enhanced 911 Emergency Response Legislation, a number of addresses may be subject to change. This legislation requires all addressing to be based on a standardized grid. Errors made in the past may need to be corrected in future versions of this Atlas.
